**MIGRATING COMMERCIAL DATABASES:  
UNLOCKING AGILITY, SCALABILITY, AND  
COST SAVINGS**

**November 14, 2024**

5:30 PM-9:00 PM

Eastern Time

In today's fast-paced digital landscape, organizations are increasingly looking to the cloud to enhance scalability, agility, performance, and cost-efficiency. Migrating commercial databases can unlock significant advantages, but it also presents unique challenges. As businesses strive to stay competitive, the migration of commercial databases to the cloud has become a strategic imperative. The event "Migrating Commercial databases: Unlocking agility, scalability and Cost Savings" brings together industry leaders, innovators, and digital strategists to explore practical and effective approaches migrating away to commercial databases. Attendees will gain insights into leveraging advanced technologies like cloud, innovative data platforms, optimizing resource allocation, and implementing and running innovative solutions cost effectively that maximize business impact. Join us to learn how to migrate commercial databases seamlessly and future trends that drive significant cloud transformation outcomes while optimizing the spend.
