## The Greatest Fears?

The biggest fear is not the technology, it is the potential of human error that could expose your organization to a cyberattack. The majority of CISOs agree that an employee carelessly falling victim to a phishing scam is the most likely cause of a security breach. Most also agree that they will not be able to reduce the level of employee disregard for information security. How do we guard against human error without limiting employee efficiency and productivity?

### PANELISTS

Chair  
VJ Viswanathan  
CEO  
Torque

Speaker  
Lee Painter  
Global Head of  
Information Security  
Governance  
Zurich Insurance Group

Speaker  
Hemanta Swain  
CISO
