The Greatest Fears?

The biggest fear is not the technology, it is the potential of human error that could expose your organization to a cyberattack. The majority of CISOs agree that an employee carelessly falling victim to a phishing scam is the most likely cause of a security breach. Most also agree that they will not be able to reduce the level of employee disregard for information security. How do we guard against human error without limiting employee efficiency and productivity?

PANELISTS

Chair

Bonface Asiligwa
Vice President
ISACA

Speaker

Joan Mburu
CISO
Airtel Kenya

Speaker

Martin Mirero
