HUMAN-CENTERED AI FOR DRIVING IT ROI

May 27, 2026

3:00 PM-4:15 PM

Eastern Time

As enterprises face rapid change driven by AI, intentional adoption is key to realizing true ROI. This session explores how human-centered AI is already improving IT operations and strengthening organizational resilience, while highlighting where human judgment remains essential and how responsible adoption helps mitigate risk. Discover practical steps CIOs can take to boost productivity and reduce operational friction through AI-assisted incident triage and automated remediation workflows, moving beyond infrastructure management to become true partners in driving organizational growth.
